

A1  
cont  
continuation-in-part of Serial No. 08/033,773, U.S. Patent No. 5,353,121, filed March 19, 1993, which is incorporated herein by this reference, and which is a continuation-in-part both of Serial No. 07/579,555, filed September 10, 1990, now abandoned, which is incorporated herein by this reference, and of Serial No. 07/916,043, filed July 17, 1992, now abandoned, which is incorporated herein by this reference, and which is a continuation of Serial No. 07/778,404, U.S. Patent No. 5,151,789, filed October 17, 1991, which is incorporated herein by this reference. --

Please replace page 52, lines 1-9, with the following:

A2  
"continued"  
-- The following is a description of a more comprehensive grazing function that allows a viewer to retrieve guide information for other channels, without leaving the current channel and without significantly obstructing viewing of the current program. This grazing guide, consisting of a few lines of text, is displayed momentarily at the bottom of the screen. The following implementation provides a consistent user interface for the various modes. --

In the Claims:

Please cancel claims 1-30.

A3  
Please add the following new claims 31-50:

1 -- 31. A method for accessing information about television  
2 programs, the method comprising the steps of:  
3 storing in electronic memory a plurality of television  
4 program listings, each listing including title, telecast time, and  
5 channel;  
6 storing in electronic memory program notes that correspond to  
7 the program listings;
